PROJECTS

- **Creative Juice:** Online platform that connects creative people and allows them to exchange knowledge and ideas online or face-to-face over coffee. Made with Vite + Vue 3 + Supabase + Bootstrap 5 + GSAP.
- **sqky | CSS Library:** sqky is a "squeaky clean" CSS library for elegant and efficient UIs made with SASS
- **grab.js | AJAX Library:** A small (1.8 kB) and comprehensive AJAX Library.
- **Sheltered | Secure Video/Chat Hybrid App:** Sheltered is a hybrid application which allows pairs of users to securely and privately set-up and make video calls and chat over the internet. No registration or authorization is required. Developed as part of my University Thesis using web frameworks like React.js, Vue.js, Node.js, Express.js, TailwindCSS, Bootstrap as well as the Ionic framework (Capacitor). *[Associated with University Of Patras & Became a Paper at INTED2023]*
- **Web Personalization - UI Campaigns Projects:** Frontend Web Development work, Personalized Web Campaigns, Email Templates and Landing Pages on DolceGabbana, Brunello Cucinelli, Ducati, Lavazza, ItaliaOnline, PPC/ΔΕΗ, Nexi Bank, Autotorino, LTA & DeLonghi official websites. *[Associated with Deloitte Greece]*.
- **Submito:** Web app designed to manage form submissions. It provides users with the ability to generate unique endpoints for form submissions, apply the endpoint as the action attribute in any HTML Form tag and then view the submissions in a dashboard. Made with Vue.js, Pinia, Express.js and PostgreSQL.
- **HAR Analyzer:** MERN stack website (MongoDB + Express + React + NodeJS) that operates as a Crowdsourcing platform and allows its users to upload, analyze and process their HAR Files (HTTP Archives)
- **Psychologist Website:** Website for a Psychologist office. Made in Vue.js and TailwindCSS and handled the entire design + development process
- **Civil Engineering Firm Website:** Website for a Civil Engineering Firm. Handled the entire design + development process
- **3D Printing Company Website:** Website for a 3D Printing Company. Handled the entire design + development process. Made in Vue.js, Bulma & GSAP
- **Design Resources & Theory Website:** Crowdsourced collection of design resources and theory materials for design enthusiasts. Made with Nuxt.js and used Notion as a CMS via the 'vue-notion' library.
- **Personal Dashboard:** Personal Dashboard with Notes, Calendar, Favorite Links, Kanban Board, Pomodoro Timer and Spotify Playlist that you can re-arrange them with drag-and-drop. Made with Vite + Vue 3 + Pinia + particles.js + vuedraggable
